Beals, R. B., 34
Beattie, W., 21
Berke, G. M., 14
Burgesss, E. M., 2

Campbell, J. H., 1, 25, 60, 89, 130
Caves, C., 123
Chang, H. T., 17
Chesmel, K. D., 17
Childress, D. S., 64

Dall, P., 10
DeToro, W. W., 39
Duff, S. J., 26
Durkin, M. C., 54

Elliot, S., 123

Fellner, C., 4
Frantz, R., 4

Gard, S. A., 64
Geil, M. D., 70
Goel, V. K., 17
Gonzalez, M. H., 54
Grahn, E. C., 26
Granat, M., 10
Grobler, L. J., 17
Grosland, N. M., 17

Hartsell, H. D., 4

Kedrowski, J. J., 90
Konz, R. J., 17

Lamb, G. A., 63
Landsberger, S. E., 74, 123

McNeal, D. R., 74, 123

Neumann, E. S., 99, 111

O'Connor, D. D., 90

Polliack, A. A., 74, 123
Pritham, C. H., 87, 88

Saltzman, C. L., 4
Shurr, D., 83
Speers, D., 83
Stark, G., 50
Steadman, J. R., 90
Sterrett, W. I., 90
Swanson, C., 74

Tanner, J. E., 14
Terpenning, J. F., 45
Torry, M. R., 90

Weir, R. F., 26

Subject Index

Adolescents, scoliosis, Wilmington brace effects, long-term follow-up study (abstract), 60
AFO: *see* Orthosis, ankle-foot
American Academy of Orthopaedic Surgeons, 68th annual meeting proceedings, 60
American Academy of Orthotists and Prosthetists, message from the president, 63
Amputation
  lower extremity, patient perception of result (abstract), 60
  surgical advances, care, and future trends (editorial), 2
  transmetacarpal, partial-hand prosthesis, 26
Amputee
  hip disarticulation, prostheses for, overview of, 50
  transtibial, early prosthetic management (abstract), 60
Anterior cruciate ligament deficiency, knee stability in, functional brace effects, 90
Arthroplasty, total knee, tibial intramedullary guides in, error analysis in, 54

Biomechanics
  load sharing capabilities, hinged *vs.* rigid posterior lumbar spinal fixation device, 17
  plantarflexion resistance of ankle-foot orthoses, 39
Book Reviews
  Above-Knee Prosthesis Technology, 87
  Orthotics and Prosthetics in Rehabilitation, 21
  The Pediatric Spine: Principles and Practice, 2nd edition, 130
  Prosthetics and Orthotics, 2nd edition, 88
Brace, knee stability in anterior cruciate ligament deficiency and, 90

Casts, total contact, repeatability of application, clinical trials and, 4
Cerebral palsy, nonambulatory population, ankle-foot orthoses effects on trunk posture, 34
Children
  deformational plagiocephaly, orthotic cranioplasty effects, 45
  flexible flatfoot, early operative treatment (abstract), 60
  myelomeningocele, lower extremity orthosis for, perspectives on, 123
  nonambulatory cerebral palsy, ankle-foot orthoses effects on trunk posture, 34
Clinical trials, total contact casts, repeatability of application for, 4
Compartment syndrome, necrotizing fasciitis and, overview and treatment, 83
Cranial asymmetry, deformational plagiocephaly and, orthotic cranioplasty effects, 45
Craniofacial deformities, deformational plagiocephaly and, orthotic cranioplasty effects, 45
Cranioplasty, orthotic, effects in deformational plagiocephaly, 45

Diabetes mellitus
  necrotizing fasciitis and, overview and treatment, 83
  neuropathy, total contact casts, repeatability of application for clinical trials and, 4

Editorials, We can do better, 2
Editor's Comments, 1, 25, 89
Energy expenditure, vertical displacement of body during walking and, 64
Energy loss, dynamic elastic response prosthetic feet and, 70

Finite element modeling, posterior fixation device, hinged *vs.* rigid, load sharing capabilities, comparison study, 17
Flatfoot, flexible, early operative treatment, children (abstract), 60

Gait
  analysis, vertical displacement of body during walking, 64
  dynamic elastic response prosthetic feet and, 70
  paraplegic orthotic, hip joint design and, 10

Hip disarticulation, prostheses for, overview of, 50
Hysteresis, dynamic elastic response prosthetic feet and, 70

Immunosuppression, necrotizing fasciitis and, overview and treatment, 83
Infection, soft tissue, necrotizing fasciitis, overview and treatment, 83
Intramedullary rod, tibial, total knee arthroplasty, error analysis in, 54

Journal of Prosthetics and Orthotics (JPO)
article quiz, 8, 32, 68, 97
content of (editorial), 25

Knee
flexion, vertical displacement of body during walking and, 64
stability, anterior cruciate ligament deficiency and, functional knee brace effects, 90
total arthroplasty, tibial intramedullary guides in, error analysis in, 54

Kyphosis, ankle-foot orthoses effects on, nonambulatory cerebral palsy population, 34

Lower extremity
amputation, patient perception of result (abstract), 60
orthosis, children with myelomeningocele, perspectives on, 123

Myelomeningocele, lower extremity orthosis for, children, perspectives on, 123

Necrotizing fasciitis, overview and treatment, 83

Orthosis
ankle-foot plantarflexion resistance of, biomechanical control, comparison study, 39 stiffness evaluation, testing apparatus for, 74 trunk posture effects, nonambulatory cerebral palsy population, 34
lower extremity, children with myelomeningocele, perspectives on, 123
reciprocating gait, hip joint design in, 10
Orthotics, necrotizing fasciitis and, overview and treatment, 83

Paraplegia, reciprocating gait orthoses, hip joint design in, 10
Patient's perception, lower extremity amputation results (abstract), 60
Pelvic tilt
posterior, ankle-foot orthoses effects on, nonambulatory cerebral palsy population, 34
vertical displacement of body during walking and, 64
Plagiocephaly, deformational, orthotic cranioplasty in, 45
Plantar ulcers, total contact casts, repeatability of application for clinical trials and, 4
Plantarflexion, resistance, ankle-foot orthoses, biomechanical control, comparison study, 39
Posterior fixation device, hinged and rigid, load sharing capabilities, comparison study, 17
Prehension, synergetic, partial-hand prosthesis in transmetacarpal amputation, 26
Pressure sensation, socket discomfort measurement, 99
Prosthesis
dynamic elastic response feet, energy loss and stiffness properties of, 70
hip disarticulation, overview of, 50
partial-hand, transmetacarpal amputation, 26
prefabricated, transtibial amputee, early prosthetic management (abstract), 60
transtibial, suspension mechanism, vertical displacement limitation and, 14
Psychophysics, socket discomfort measurement
pressure sensation and, 99
signal detection and, 111

Radiography, suspension mechanism in transtibial prosthetics, vertical displacement limitation and, 14

Scoliosis, adolescent, Wilmington brace effects, long-term follow-up study (abstract), 60
Signal detection, socket discomfort measurement, 111
Sitting angle, ankle-foot orthoses effects on, nonambulatory cerebral palsy population, 34
Socket discomfort measurement
pressure sensation and, 99
signal detection, 111
Spina bifida, lower extremity orthosis for, children, perspectives on, 123
Spinal stabilization, posterior fixation device, hinged *vs.* rigid, load sharing capabilities, comparison study, 17
Stiffness
dynamic elastic response prosthetic feet and, 70
orthosis, ankle-foot orthoses, testing apparatus for evaluation, 74
Surgery
amputation, advances, care, and future trends (editorial), 2
flexible flatfoot, children (abstract), 60
Suspension, in transtibial prosthetics, vertical displacement limitation and, radiography, 14

Walking, vertical displacement of body during, 64
Wilmington brace, adolescent scoliosis, long-term follow-up study (abstract), 60
